With the exception of a few

articles, there is much of interest

in them, they can get. Let your

local paper and print in your town

or in your paper, and the world will

be interested in them.

Correspondence and news of events are solicited from readers of the Gazette. Every news item is welcome, but facts or happenings that others would like to read about.

While we have an efficient corps of regular correspondents, we are not able to give full space to all the news that comes in. Please sign your name when you can, so that we may be able to credit you for your news item.

FRIDAY, APRIL 18, 1895.

After all we have said, we are surprised that some people still insist on us for publication, and simply "a reader of the Gazette." We cannot print notices without knowing who is responsible for them. Even the most innocent appearing paragraph might be a malicious joke or "gossip" upon someone. Please sign your name, although not for publication.

The Gazele, M.

The annual report of the Weymouth Department shows great advances in the work of extermination for the year 1894.

The Weymouth Department, which includes the orchard-keepers, shad-boats, parks and woodlands of Massachusetts by reason of the presence within her borders at one of the worst insect pests of Europe.

The greater number of insects, however, are found upon vegetables. It is far more destructive than the tent caterpillar or earwaxworm as its ravages cover the entire period of the summer, and the damage is more serious, destroying the fruit and, in many cases, killing the trees, notwithstanding the efforts of the people to control the pest.

For the moth has not been seen outside of the state, and when found in the Weymouth Department all reports to the contrary. It possibly may have spread beyond that region.

As the appropriation made by the legislature for the extermination of the tent caterpillar is still in abeyance, it is necessary to make a special appropriation for the control of this pest. The Weymouth Department, all citizens, and especially farmers, fruit-growers and horticulturists, are requested to be on the alert for the appearance of the moth and to report any sightings.

The report will be mailed free to any address upon application to E. H. Purush, 13 Stanwood Hall, Milburn, N.Y.

The Metropolitan Park Commission.

Our town being so favorably situated on the south shore of Boston Bay, with easy access to the various islands and the shore, it is natural that the Weymouth Park Commission, of which board Hon. Charles Francis Adams of Quincy—who has been so liberal in regard to the monument to be erected on the site of the first settlement on Massachusetts Bay at North Weymouth—should have a park system.

The Weymouth Park Commission, in its report for the year 1894, which includes a statement of all the work done, states:

"The park system is now in full operation.

The members of the Boy's Brigade were very happy to meet their friends last Wednesday evening, by the arrival of their caps, belts and guns.

Mr. E. P. Mayberry is putting the edge of his sidewalk improved by putting on mats.

Four of the South High school boys have been summoned to appear before the Board of Education on Tuesday evening (yesterday) morning, to answer to a charge of maliciously breaking down one of the doors of the building owned by Mrs. Eliza T. Joy, now occupied by the Lincoln club. The deed was done on March 8th. Since that time five have offered to settle the sum for the damage, but the door has not been repaired by Louis A. Cook and Melvin G. Adams, attorneys-at-law. This case has excited some interest and probably some of our citizens will be of the trial.

The South High Ball club want to Weymouth last Wednesday afternoon and were defeated by a score of 14 to 10 by the North High School club.

One of our young lady bicycle riders seems to be having a hard time learning to ride. Not content with running into trees and teams, she even runs into Weymouth Great pond and gets a good wetting.

Please view another one of our future events. A number of our young people are two years old, and now they are at work breaking out the land for the new streets. A. Cook already has the foundation laid for a new house which is to be built soon.

The assessors of the Union church met last Saturday evening and organized with the following officers: J. A. Fog, chairman; F. H. Tread, secretary; and W. L. Bassett, treasurer.

There are two cases of scarlet fever reported, one on White street and one on Union street.

Louis A. Cook went to Worcester with the officers of the Grand Lodge of the I. O. O. F., Wednesday evening.

S. H. Print of the Sun has been having a very severe time with his throat, being unable to speak for a week.

The 4th anniversary of the Ladies' sewing circle connected with the Universal church was observed in the vestry of the church on Tuesday evening. The circle is bounded by quite a large number of ladies. Feb. 20, 1864, was the date of their organization. The circle has a short period of social converse, a specially prepared programme was carried out, and then the circle was opened for a social visit. Wilsey orchestra, violin solo by Mrs. A. Everett Cushing, the minute dance and a solo by Mrs. Cushing, a solo by a person, written by Mrs. E. B. Brown, entitled the "Old Sewing Circle," by H. L. Tread, a solo by Mrs. Cushing, and Rev. J. W. Atwood was presented with a beautiful basket of flowers, while the circle received a small bouquet. A surprise, in the way of ice cream cake, was given to all those present. The circle was organized by Mrs. Rosanna Whitehead and her Sunday school class of fourteen young ladies.

REAS' VACATION.

One of the silliest things that has ever happened to me is to have a boy, after getting a few of his high school boys and summing them to Queen tomorrow, to come to me and say, "I am a Queen." They are all of good boys and good favorites of the village and from the best of all sources I have been assured that our school should direct their hands with such simple matters. The plaintiff has a son, and he is a boy of 12, and he is making the arrest has the poorest record of any boy in the village. We feel that the boy is a good boy, and we are going to cut out and point his finger to those who brought such a foolish thing into court and they ought to be ashamed.

SUGGESTIONS FOR A PATRIOTIC AR-

Any Columbian Trees Will Be Planted  
This Year--The Raising Carnavale  
May Appropriately Be Combined With  
Tree Planting.

Copyright, 1882, by American Press Associa-  
tion, Inc.

**N**ADDITION is  
the other house,  
that will be  
paid to him,  
Christopher Col-  
lumbus is going  
to have more  
memoried this year  
than any other  
one man since the  
first Arbor day.  
His family and  
ancestors were per-  
petuated by these  
great monu-  
ments that will  
match every-  
thing that is being  
built and  
erected and decorated for the great  
Columbian celebration.

When a tree is planted to Columbus, it  
will be a good omen, for the planting  
is a great and glorious affair, and  
whatever the main exercises will be held, with  
the American and Spanish colors draped  
together over it. As all the music will  
be patriotic, it is necessary to name  
songs, for which the tree must be used to  
name them.

It is a good idea to have a  
name day at the North End and another at  
the South End, with rapid trains be-  
tween the two, and it will all come in  
time if this year.

Granted that their fears are just, that is  
not the reason why a man should be afraid to  
plant a tree, but the reason is that the  
main exercises will be held in the  
Columbian forest.

The children taking part may be  
divided into three groups—the Isabella  
foresters, composed of girls; the Colum-  
bus foresters, all men, with the name  
of Columbus and the colors of Italy; the  
third group, formed of boys, with the  
name of Isabella and the colors of Spain.

The first group carries a ban-  
ner with Isabella's name and the colors

of Spain; the second, one with the word  
Columbus and the colors of Italy; the  
third, an American flag—their names  
will be on the banner.

The Isabella group plants their tree in her  
name, the Columbus group in the name  
of Columbus, and the third group in the  
name of Isabella.

“Isabella of Castile was a good woman,”

When the first Columbus day was held, in  
1492, the queen had a good effect, and the  
result was a victory for the people.

When the gas manufacturers declared that  
after May 1 the Bay State gas company  
would not be able to supply gas for  
a year, the gas companies refused to  
pay the price of 25¢ a thousand  
cubic feet.

Victors are taking the lead.

The FLYER weighs 28 pounds and the MODEL D 35 pounds with all the attachments, and can be stripped to 31 pounds.

With the Victor, in case of puncture, you do not have to waste from ten minutes to an hour to find a pin or tack hole and then patch it and wait for it to dry, but you simply remove the inner tube and replace it with the extra one which is supplied with each wheel and is carried in the tool bag, and mend the old at your leisure at home. This whole operation makes a delay of not over ten minutes. We furnish either round or elliptical sprocket wheels.

We also have second-hand Victor and Columbia Pneumatic tires for sale cheap.

How many persons know that Ripon's Tabules, now so largely advertised and used, are simply the favorite prescription of their family doctor prepared in a scientific manner and a form convenient for handling, conveyance, preservation and use? In the great hospitals of the metropolitan cities, where the wealthy find better care than in their own luxurious homes, the ingredients of Ripon's Tabules are administered to thousands of rich and poor alike with beneficial effect. They are the main dependence of the most eminent physician in cases of derangement of the digestive organs, such as dyspepsia, constipation, biliousness and other ills connected with the stomach, liver and bowels. For some years one of the principal hospitals in New York City has used a formula, differing slightly from the common one, that has been found of unusual efficacy. Through the countenances of physicians its mission of healing has been so widely and rapidly extending that it finally seemed desirable to prepare the prescription in a convenient form, so as to make it available to the whole public at a moderate price, and to announce the fact through the recognized medium for securing publicity—advertisements in the columns of the newspapers of the land. This has been done, and now the time is not far distant when every family of intelligence will be as certain to possess a supply of Ripon's Tabules as a clock or a cooking stove. They are already to be found on sale almost everywhere, and any druggist or dealer will supply them. A box, containing six vials, is sold for 75 cents, and a gross package, containing four boxes, for \$2. They will be sent by mail, post paid, to any address, on receipt of price, by the Ripon Chemical Company, No. 10 Spruce Street, New York.
